

AKASH KRISHNA M

Full Stack Developer | Node.js | React.js

Bengaluru, Karnataka | akashgangan2000@gmail.com | +91 7306935086 | Portfolio | LinkedIn | GitHub

Summary

B.Tech IT graduate with strong expertise in **React.js**, **Node.js**, and **Full Stack Development**. Experienced in building **scalable, high-performance web applications** and real-world projects using the **MERN Stack**. Familiar with **REST APIs**, **SQL/NoSQL databases**, cloud platforms, and backend access control concepts like **RBAC**. Passionate about contributing to **production systems**, solving **business workflows**, and growing as a software developer in a fast-paced environment.

Certifications

- Python Certification – Kaggle
- AI Machine Learning Certification - IBM

Education

COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY, B.Tech in Information Technology
STATE BOARD OF TECHNICAL EDUCATION , Diploma in Computer Engineering

NOV 2022 –APR 2025
NOV 2020 –MAY 2022

Experience

Full Stack Developer, NOTIME

Apr 2025– Apr 2026

- Developed and deployed **scalable, high-performance web applications** using **React.js**, **Node.js**, and **REST APIs**.
- Engineered backend services with **MySQL** and **efficient data handling** to support **business workflows**.
- Built **responsive user interfaces** and connected **real-time APIs** for **dynamic data processing** and improved performance.
- Established **authentication**, **RBAC**, and managed deployments on **AWS** for secure and reliable systems.

Technical Skills

- Programming Languages: **JavaScript**, **TypeScript**, **Java**, **Python**.
- Frontend Technologies: **React.js**, **Next.js**, **HTML**, **CSS**, **Tailwind CSS**, **Redux**, **Zustand**.
- Backend Technologies: **Node.js**, **Express.js**, **REST APIs**, **Microservices Architecture**.
- Databases: **MySQL**, **MongoDB**, **Supabase (SQL NoSQL Databases)**.
- Cloud DevOps: **AWS (EC2, S3, RDS)**, **Docker**, **Cloud Deployment**.
- AI Data: **Machine Learning Fundamentals**, **AI/ML Integration**, **FastAPI-based ML Services**.
- Concepts: **RBAC**, **OAuth**, **JWT Authentication**, **MVC**, **Asynchronous Programming**, **Scalable Applications**.
- Tools: **Git**, **GitHub**, **Postman**, **CI/CD Basics**.
- Soft Skills: **Problem Solving**, **Team Collaboration**, **Communication**, **Adaptability**.

Projects

SMART CROPS |MERN Stack, FastAPI, REST APIs, Tailwind CSS

- Developed a **scalable web application** enabling farmers to sell products directly to customers, eliminating intermediaries and supporting **e-commerce workflows**.
- Built **responsive UI** using **React.js** and **Tailwind CSS** for seamless product browsing and purchasing.
- Designed backend services using **Node.js** and **Express.js** with **REST APIs** for **product, order management**, and transactions.
- Integrated Razorpay (test mode) for secure **payment workflow** and **order processing**.
- Implemented **authentication** (Google OAuth) and **RBAC** for **role-based workflows**.
- Integrated a FastAPI-based ML service for crop prediction using soil and climatic data, enabling **business logic integration**.

STUDENT-MENTOR Web App | React.js, Node.js, Express.js, MySQL

- Developed a **scalable web application** enabling students to submit ideas and receive mentor feedback, supporting **workflow management**.
- Built **responsive UI** using **React.js** and **Tailwind CSS** for improved user experience.
- Designed backend services using **Node.js** and **Express.js** with **REST APIs**.
- Integrated **MySQL** for efficient **SQL-based data storage** and management.
- Implemented **authentication** and **RBAC** using Passport.js for **secure role-based access control**.
