

AKASH KRISHNA M

React Developer

Bengaluru, Karnataka | akashgangan2002@gmail.com | +91 7306935086 | Portfolio | LinkedIn | GitHub

Summary

B.Tech IT graduate with strong expertise in **React.js**, **JavaScript**, and modern front-end development. Skilled in building **responsive and user-friendly web applications** using component-based architecture. Experienced in developing reusable UI components, integrating **APIs**, and improving performance. Passionate about creating interactive user experiences and continuously learning modern frontend technologies.

Certifications

- Python Certification – Kaggle
- AI Machine Learning Certification - IBM

Education

COCHIN UNIVERSITY OF SCIENCE AND TECHNOLOGY, B.Tech in Information Technology	NOV 2022 –APR 2025
STATE BOARD OF TECHNICAL EDUCATION , Diploma in Computer Engineering	NOV 2020 –MAY 2022

Experience

Full Stack Developer, NOTIME Apr 2025– Apr 2026

- Developed and deployed **scalable, high-performance web applications** using **React.js**, **Node.js**, and **REST APIs**.
- Engineered backend services with **MySQL** and **efficient data handling** to support **business workflows**.
- Built **responsive user interfaces** and connected **real-time APIs** for **dynamic data processing** and improved performance.
- Established **authentication**, **RBAC**, and managed deployments on **AWS** for secure and reliable systems.

Technical Skills

- Frontend Technologies: **React.js**, **Next.js**, HTML, CSS, **Tailwind CSS**
- Programming Languages: **JavaScript**, TypeScript, Python
- State Management: **Redux**, Zustand
- Backend Technologies: Node.js, Express.js, REST APIs
- Concepts: **Responsive Design**, **Component-Based Architecture**, **Web Performance Optimization**
- Tools: **Git**, GitHub, Postman
- Soft Skills: **Problem Solving**, Team Collaboration, Communication, Adaptability

Projects

SMART CROPS | MERN Stack, FastAPI, REST APIs, Tailwind CSS

- Developed a **scalable full-stack web application** enabling farmers to sell products directly, supporting **e-commerce workflows**.
- Built **responsive and mobile-friendly UI** using **React.js** and **Tailwind CSS**.
- Engineered backend services using Node.js, Express.js, and **REST APIs** for product and order management.
- Incorporated payment gateway, **Google OAuth authentication**, and RBAC for secure workflows.
- Connected a FastAPI-based ML service for crop prediction, enabling **data-driven decision-making** and **clean code practices**.

STUDENT-MENTOR Web App | React.js, Node.js, Express.js, MySQL

- Developed a **scalable web application** for student-mentor interaction, enabling structured **workflow management**.
- Built **responsive user interfaces** using **React.js** and **Tailwind CSS**.
- Engineered backend services using Node.js, Express.js, and **REST APIs**.
- Utilized MySQL for efficient relational data storage and management.
- Applied **authentication** and RBAC using Passport.js and improved performance through **debugging** and **optimization**.
